

NEW **Verdict plus** Interactive
Response System from Hitachi

Bringing interaction and flexibility to lessons

VerDICT Plus is an interactive response system that enables you to test or gauge classroom or audience response.

VerDICT Plus is a radio frequency wireless interactive response system which comes with a range of pre-set questions and resources. VerDICT Plus encourages whole class participation and has been proven to make a tangible difference to learning and motivation.

Teachers can choose to make answers anonymous, or to enable students to see how well they are doing in response to others. Pre-customised questions can be used, or new ones created during a session. Answers can then be transferred, collected and analysed for further reference.

VerDICT Plus highlights

- Displays different types of questions:
 - True/false
 - Alpha/Numeric
 - Yes/No
- PowerPoint integration.
- Sim card option available.
- Games selection to show results and student performance.
- Includes 1500 curriculum questions.
- All data is captured and can be used for assessment purposes.
- Vista compatible.
- Can run with any laptop, projector or pc.
- Multiple base frequency allows extended range without interference from nearby systems.
- Reports can be displayed as a chart, pie chart or bar chart.
- Teacher control by designated remote or interactive on screen menu.
