

Verdict *plus*

INTERACTIVE VOTING SYSTEM

Bringing Interaction to Lessons

Verdict Plus is a radio frequency wireless interactive response system which comes with a range of pre-set questions and resources. Verdict Plus encourages whole class participation and has been proven to make a tangible difference to learning and motivation.

Variety of Questions Formats

Verdict Plus includes a wide variety of questions formats such as decimal, YES/NO, TRUE/FALSE, as well as an advanced texting feature, as easy to use as a mobile phone.

PowerPoint Compatibility

Teachers are able to prepare questions in advance using PowerPoint templates.

Flexible Reports System

Teachers are able to choose whether answers are anonymous or not. Results reports can be displayed in the form of graphic charts (pie chart or bar chart) or collated and analysed for further reference.

Cens-Us Floating Toolbar

The Verdict Plus comes with Cens-Us, a floating interactive toolbar which makes voting instantly available. The Cens-Us toolbar can easily operate with Internet Explorer, Microsoft Office and other external applications.
